CONTROL STICK FUNCTION

The Nintendo 64 Controller contains a Control Stick which uses an analog system to read the angles and directions of its movement. This allows precision control that is not possible using the conventional Control Pad.

When turning the Control Deck Power ON, do not move the Control Stick from its neutral position on the controller.

If the Control Stick is held at an angled position (as shown in the top picture, left) when the power is turned on, this position will be set as neutral. This will cause games using the Control Stick to operate incorrectly.

To reset the neutral position once the game has started, let go of the Control Stick so it can return to its center position (as shown in the bottom picture, left), then press START while holding down the L and R Buttons.

The Control Stick is a precision instrument; make sure not to spill liquids or place any foreign objects into it. If you need assistance, contact Nintendo consumer Assistance at 1-800-255-3700 or your nearest Nintendo Authorized Repair CenterSM.

HOLDING THE NINTENDO 64 CONTROLLER

We recommend that you use the hand positions shown at right. By holding the controller like this, you can operate the Control Stick freely with your left thumb. Using your right thumb, you can easily access the A, B and C Buttons. Place your left index finger on the controller where it feels comfortable, but not in a position where you might accidentally press the Z Button on the back of your controller.

Warning: Never insert or remove a Game Pak® when the power is on!

1. Make sure the power is OFF on your N64®.
2. Insert the Game Pak into the slot on your N64. Press firmly to lock the Game Pak into place.
3. Confirm that a controller is connected. *RUGRATS IN PARIS* is a 1-to-4 player game. Controller Sockets 1 through 4 correspond to players 1 through 4 respectively. Please connect controllers to the correct socket for each player.
4. Turn the POWER switch ON. (Do not touch the Control Stick while powering-on.) Game data is loaded automatically when a Controller Pak® is connected to the 1P Controller.
5. At the Title screen, press START when prompted to begin the game.

Note: To save games, insert the N64 Controller Pak into the controller before starting play.

SAVING AND LOADING

While saving onto your Game Pak, do not turn off your Nintendo 64, remove the Game Pak or disconnect the controller. To play a previously saved game, insert the *RUGRATS IN PARIS* Game Pak into your Nintendo 64 and choose LOAD.
